Dr. Dargon:

Thank you for your call today regarding the current status of the Westport Middle School. As you are aware, there was a limited remediation conducted at the school in 2011, and the school has been conducting quarterly indoor air monitoring for the interim measures that were implemented in 2011.

As I understand it, there is currently a Statement of Interest for the school before the MSBA for funding. By Fall 2014, the School Committee is to make a determination on whether to keep the current building or whether to close the school at the end of this school year and relocate and/or construct a new school.

As you are aware the school has not submitted a proposed PCB cleanup plan to EPA to address the PCB contamination remaining within the school.

However given the above schedule, please provide notification to EPA of the School Committee's decision by December 1, 2014. The plan and schedule for either continuing use of the building or vacating the building will determine what EPA may require for management of PCBs at the school.

Should you have any questions, please feel free to contact me.

Hello,  
I left a voice mail message for you today.  
I understand from Bob May that you have some questions.  
Please do not hesitate to contact me at your convenience.  
Thanks you.  
Ann

Bob:

Attached is the air data table I discussed with you this morning for the Westport Middle School. As you can see, many rooms have not been sampled on an annual basis as was proposed by the school.

I also do not have all laboratory reports for all samples. The April 2013 Report I received contained a CD; however, the only laboratory reports I found were for samples collected in January 2012; April 2012; and June 2012.

Per I discussion, please ensure I have all air sample results, including pre- and post-abatement samples. I also need the laboratory reports, which can be provided on a CD-ROM. You also mentioned a feasibility report that contains more PCB data as well as an evaluation of remedial alternatives with costs, which you will get to me. I appreciate this.

*Non Responsive*

Should you have any questions, please feel free to call me.
